Re: Letter of Reference for Phase2 Advantage Cybersecurity

To Whom it may concern,

I had the opportunity to work on multiple projects with Michael Kaplan and Phase2 Advantage throughout the Caribbean (CARICOM) community. These projects required a deep understanding of cybersecurity, physical security, and delivering complex training.

The expertise of Phase2 Advantage executives, professional demeanor of the course instructors, a detailed understanding and knowledge of the regions' culture, and hands-on cybersecurity training methods allowed the companies involved to complete the certification projects on time and prepared the students attending courses for a variety of cybersecurity positions in Trinidad in a highly-professional manner that exceeded the clients' expectation.

Additionally, Phase2 Advantage was able to develop and deliver these contracted cybersecurity training services effectively in both unrestricted environments in the private sector and sensitive and restricted environments inherent to government agencies at all levels.

If you need any additional information, please contact me.

Best regards,

A handwritten signature in blue ink that reads "G. Lezama". The signature is fluid and cursive, with a large loop at the end.
